**Chair of Governors:** Mr Ashfaq Khan

19 October 2020

Dear Parents and carers,

We have been made aware that there has been a confirmed case of COVID-19 within school.

We know that you may find this concerning but want to reassure you that we are continuing to monitor the situation and are working closely with Public Health England. This letter is to inform you of the current situation and provide advice on how to support your child. **Please be reassured that for most people, coronavirus (COVID-19) will be a mild illness.**

Some of our children in Year 4 and Year 3 have been asked to isolate as a precautionary measure.

Ms Jama, Ms Kayani, Ms Macnair and Ms Aleks will also be isolating as a precaution, as direct 'contacts'.

#### **Do year groups need to isolate?**

Advice from Public Health England is that some children in Year 4 and Year 3 are classed as a contact of this staff member.

Brothers and sisters in other year groups should still come to school, even if their sibling is having to self-isolate.

As usual, if the children develop any of the symptoms of Covid 19, they should not attend school and arrange to get a test.

The school remains open and your child should continue to attend if they remain well.

#### **What to do if your child develops symptoms of COVID 19**

If your child develops symptoms of COVID-19, they must not come to school and should remain at home for at least **10 days** from the date when their symptoms appeared. Anyone with symptoms will be eligible for testing and this can be arranged via <https://www.nhs.uk/ask-for-a-coronavirus-test> or by calling 119.

All other household members who remain well, must stay at home and not leave the house for 14 days. This includes anyone in your 'Support Bubble'.

Further information is available at: <https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance/stay-at-home-guidance-for-households-with-possible-coronavirus-covid-19-infection>

The 14-day period starts from the day when the first person in the house became ill.

Mercia Learning Trust

National College for  
Teaching & Leadership

Household members should not go to work, school or public areas and exercise should be taken within the home.

If you require help with buying groceries, other shopping or picking up medication, or walking a dog, you should ask friends or family. Alternatively, you can order your shopping online and medication by phone or online.

Household members staying at home for 14 days will greatly reduce the overall amount of infection the household could pass on to others in the community

If you are able, move any vulnerable individuals (such as the elderly and those with underlying health conditions) out of your home, to stay with friends or family for the duration of the home isolation period.

## Symptoms

The most common symptoms of coronavirus (COVID-19) are recent onset of:

- a new continuous cough
- a high temperature
- a loss of, or change in, your normal sense of taste or smell (anosmia)

**For most people, coronavirus (COVID-19) will be a mild illness.**

If your child or anyone in the household does develop symptoms, you can seek advice from NHS 111 at <https://www.nhs.uk/conditions/coronavirus-covid-19/check-if-you-have-coronavirus-symptoms/> or by phoning 111.

## How to stop COVID-19 spreading

There are things you can do to help reduce the risk of you and anyone you live with getting ill with COVID-19

*Do*

- wash your hands with soap and water often – do this for at least 20 seconds
- use hand sanitiser gel if soap and water are not available
- wash your hands as soon as you get home
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards

## Further Information

Further information is available at <https://www.nhs.uk/conditions/coronavirus-covid-19/>

Thank you so much for your continued support. As always, please do get in touch if you have any questions or concerns.

Very best wishes
